Wouldn't it be great if we could make Christmas greener, less wasteful, less stressful, more enjoyable, and with more space to focus on what it's really all about?

This book is written for families to work through. "Dreaming of a Green Christmas" is an essential companion as you prepare for the festive season. With 111 practical eco-tips to select from, you'll find inspiration and encouragement too, with pauses in the busyness for moments of biblical

reflection that speak of God's love for His creation – people and planet.

"This is the perfect book to help us all celebrate and enjoy Christmas in ways that also take care of the world Jesus entered into. No need to feel guilty or stressed – Olivia guides us lightly through the maze. So get reading and get on with it!" – Dr Ruth Valerio, environmentalist, theologian, social activist and author.

"Grounded in biblical wisdom and filled with practical ideas, this book serves as a catalyst for conversations about creating a slower approach to Christmas with more time for what truly matters. So when the shops start to fill with stuff we don't need, the true cost of which we can't see, dare to dream that there is another, greener way. Make a cuppa and start here....." – Helen Stephens, church relations manager, A Rocha UK
